

# GLOBAL AWARENESS PETTING ZOO

*Create a fun and engaging Christmas experience for your church when you bring gifts from the Global Gift Guide “to life” through an interactive animal exhibit on your church campus.*

## Activity

Build a small “zoo” on your church campus to encourage families to bring Christmas to a child, family or village in one of the world’s most difficult places through the purchase of a chicken, goat, duck, fish or other farm item in the World Concern Global Gift Guide.

### ☐ Animals

If your church is in a more rural area you may be able to ask families from your church to provide animals from their home or farm. You can also reach out to local FFA clubs, families, Livestock feed stores, or children’s petting zoo vendors, etc. to create a small “farm” experience during your weekend service.

- Goats
- Chickens
- Ducks
- Sheep

Choose animals to be part of the experience. You may also consider adding a “water” element or represent other items from the Gift Guide.

### ☐ Props

Use straw bales, African fabric, photographs or other global props can add to the experience. Be creative and have fun!

### ☐ People

Engage people from your church, including possibly your youth group, to man the “zoo” and explain the significance of the exhibit.

### ☐ Take Action

Make sure you have copies of the gift guide on hand to share with your congregation. Encourage everyone to select a gift to share with a family in need around the world!
